How to earn, track and use UCoin (UC)

Last updated 1 October 2026

UCoin (UC) is the 1145 reward currency. You earn it across the 1145 ecosystem: shopping, rides, stays, leasing, driving, selling, creating content and referring friends. 1 UC is worth R0.10, so 10 UC takes R1 off at checkout.

Tiers and mining capacity

Your tier sets how much UC you can earn from everyday activity: check-in, base mining, browsing, cashback, tasks and referral activity. One-off bonuses (welcome, first purchase, milestones, referral qualification rewards, birthday, sponsored campaigns) are never limited.

Reach a tier for free with qualified referrals, or subscribe monthly to get it now. Your tier is whichever is higher. Subscriptions are paid through PayFast and can be cancelled any time; you keep the tier until the paid month ends.

Tier	Qualified referrals	Monthly price	Max UC/day	Max UC/30 days	Value/month
Starter	0	Free	100 UC	3,000 UC	R300
Bronze	5	R199	200 UC	6,000 UC	R600
Silver	15	R399	350 UC	10,500 UC	R1,050
Gold	30	R699	500 UC	15,000 UC	R1,500
Platinum	60	R1,199	750 UC	22,500 UC	R2,250
Diamond	100	R1,799	1,000 UC	30,000 UC	R3,000

The Mining capacity card in the Rewards tab shows today's earnings by type and how much capacity you have left. When you reach a limit, everyday rewards pause until the next day (the 30-day limit rolls over continuously).

Where to see your rewards

- Wallet: your balance and every transaction, including which activity paid it.
- Rewards tab: check-in, today's mining capacity, your tier, and your task submissions.
- Notifications: you get one each time UC is added.

Using your UC

- Pay with UC at checkout: 10 UC = R1 off your order.
- Send UC to another 1145 user from your Wallet. Any fee is shown before you confirm.

Fair play

- One 1145 account per person.
- Rewards are only for real, verified actions. Each social account, post, product review and referral can earn only once.
- Changes you make yourself (for example, marking your own ride complete) never earn rewards; the other party or 1145 confirms them.
- Rewards earned through fake accounts, fake activity or misuse can be reversed, and the account removed from the programme.
- Reward amounts, tasks, tiers and limits may change. The latest version of this guide is always in the app.

Questions

I signed up but didn't get the welcome bonus.

It is paid when your email is confirmed. If you signed up with Google or Facebook, it is paid straight away.

Why did I get less cashback than expected?

Everyday rewards stop at your tier's daily and 30-day limits. Check the Mining capacity card; a higher tier raises the limits.

My task says Submitted for review.

Tasks are checked by 1145 before paying. Make sure you added the link to your post.

When do referral rewards count towards tiers?

A referral counts once they verify email and mobile, or complete their first purchase.

What happens if I cancel my subscription?

Nothing changes until the month you paid for ends; then you move to the tier your referrals reach.
